### 3.1 License

QuantAlea grants the Licensee a nontransferable, nonexclusive and time limited license to use Alea GPU to run Derivative Work under the following usage and licensing restrictions:

- Installation and use is limited to the number of Instances set out in the Annex;
- The Editions of the licenses are set out in the Annex, which specify which GPU types can be used and how many of them can be installed in the target system;
- The license is valid for one calendar year and is automatically renewed afterwards at the day and month of this Agreements date. On license renewal, the applicable license fees are then then current license fees for the corresponding license Editions. All other terms and conditions of this Agreement

### 3.2 Redistribution Rights

QuantAlea grants the Licensee the royalty free distribution of Derivative Work produced with Alea GPU. The use of Derivative Work requires that Alea GPU is performing JIT Compilation at the installation site. Depending on the GPU type used at the installation site, an additional license is required to be installed on the target system in order to run or execute Derivative Work.

### 3.3 Restrictions

The Licensee may not modify in any manner Alea GPU. The Licensee shall not, nor allow others to copy, in whole or in part, emulate, sub-license, lease or rent, sell, transfer, exploit, alter, modify or adapt the Software Product nor decompile, disassemble or reverse engineer the same nor attempt to do such thing, unless such activities are explicitly permitted according to the provisions in Section 3.1 and 3.2 or according to the compelling terms of the applicable law.

The Licensee may not use or disclose Alea GPU for purposes of third parties or other companies belonging to the same legal entity as the Licensee.

The Licensee agrees not to use the knowledge acquired from the source code in order to develop for itself or a third party any program that is similar to or competitive with the Software.

However, QuantAlea may, at its sole discretion, undertake such Maintenance Services as requested by the Licensee, on payment by the Licensee at QuantAlea's then current charges for such Maintenance Services. #### 4.5 Subcontractors

If the Licensee discloses to QuantAlea confidential information necessary to fulfill contractual obligations of QuantAlea, QuantAlea may not make available to third parties the confidential information unless such parties are involved in the fulfillment of QuantAlea's contractual obligations. All of Licensee's data and information which are publicly known at the time the Agreement is concluded or become publicly known without any violation of the contractual agreements during the validity of the Agreement shall not be regarded as confidential under the terms of this provision.

## 7 No Warranty and Limitation of Liability

### 7.1 No Warranties

QuantAlea expressly disclaims any warranty for the Software Product. QuantAlea does not warrant that the Software Product is free from bugs, errors or other program limitations. Alea GPU is provided "as is" without warranty of any kind, either express or implied, including, without limitation, the implied warranties or merchantability, fitness for a particular purpose, or non-infringement or the warranty of title. ## 8 Marketing

QuantAlea is entitled to name the Licensee as a reference for marketing or to third parties without giving any details about the actual GPU usage of the Licensee or the

work performed for the Licensee, provided that the Licensee gives its written consent to QuantAlea to do so. Such consent may not be unreasonably withheld by the Licensee.

## 9 Termination

If the Licensee wants to discontinue this Agreement, he has to notify QuantAlea in writing at least three (3) months before the license renewal date. Without such a notification, the license renewal will happen automatically for another calendar year.

If QuantAlea adjusts the license fees for a license renewal, the Licensee has the right to cancel this Agreement in writing. The cancellation takes place three (3) month after written notification by the Licensee. In this event the license fees will be reimbursed pro rata temporis.
